

OGB-13

INSTRUCTIONS

Read Carefully and Comply Fully

This form shall be filed in triplicate with the State Oil and Gas Board at the address below covering each plant in which products are produced. A separate certificate shall be filed for each transporter authorized to transport products from a plant.

After said certificate has been approved by the State Oil and Gas Board, one copy will be forwarded to the transporter; one copy returned to the producer; and one copy retained by the Board.

This certificate when properly executed and approved by the State Oil and Gas Board shall constitute an authorization to a pipeline or other carrier to transport products from the plant named therein and shall remain in full force and effect until:

1. Operating ownership changes; or
2. The transporter is changed; or
3. The authorization is canceled by the State Oil and Gas Board.

In all cases where the certificate is filed to cover a change in operating ownership or a change in the transporter designated to transport products, show under "REMARKS" the previous owner or operator and the transporter previously authorized to transport products.

Make sure that you complete the form correctly and provide all the information requested. **State Oil and Gas Board personnel will not make additions to or change any part of a notarized form.**
